📍 Lagos Nigeria

SUMMARY

I'm a creative Frontend Developer with 2 years of experience building user-friendly and visually appealing websites. I specialize in HTML, CSS, JavaScript, and React, with a strong focus on clean design, smooth animations, and great user experience. I have hands-on experience integrating APIs to build dynamic and interactive web applications. I enjoy collaborating with teams and continuously seek opportunities to learn and grow in the ever-evolving tech landscape.

EXPERIENCE

Frontend Developer

Self-Employed

📅 01/2023 📍 Remote

A skilled frontend developer with expertise in creating responsive, user-friendly websites and applications. Specializing in React, Vite, and CSS, I design and build seamless web experiences while working independently on various projects for clients and personal ventures.

- Built and deployed multiple interactive and responsive web applications. Worked with React, JavaScript, and CSS to create smooth and engaging UI/UX experiences.
- Integrated APIs to develop dynamic features in apps like weather checkers and movie search tools.
- Developed and maintained a portfolio showcasing various frontend projects.
- Created websites for personal projects and small businesses, ensuring mobile responsiveness and accessibility.
- Continuously improved skills through online learning, certifications, and hands-on coding projects.

Frontend Developer Intern

Andela

📅 05/2024 📍 Remote

Andela connects companies with skilled tech talent globally, helping build remote engineering teams with AI-driven matching and offering career opportunities to developers.

- Worked on real-world projects with a professional team.
- Built reusable components and improved frontend performance using React.js.
- Participated in Agile sprints and used Git for version control.

Frontend Developer Intern

TechHub

📅 2024 📍 Lagos, Nigeria

Tech Hub Africa LLC is dedicated to building a thriving tech ecosystem across Africa, connecting innovators and empowering talent in technology, science, and engineering.

- Assisted in building and optimizing websites for local businesses.
- Worked with senior developers to improve website speed and functionality.
- Gained hands-on experience with React.js, WordPress, and web performance optimization.

SKILLS

JavaScript (ES6+)	React.js	CSS3
HTML5	Vite	Tailwind CSS
Typescript		Git

COURSES

Banking and Finance

KEY ACHIEVEMENTS

Milestones

Successfully built and launched 10+ responsive and user-friendly websites using React, HTML, and CSS.

Developed a weather app and movie search app with real-time API integration.

Created a hotel website and an eCommerce store with animated and mobile-responsive UI.

Designed and deployed portfolio and landing pages that improved client visibility and engagement.

Continuously improved development speed and UI quality through clean code practices and user feedback.

Collaborated with other developers on real-world projects, improving teamwork and debugging skills.

PROJECTS

Vendor – eCommerce Website

📅 04/2025 📍 Remote

A fully responsive eCommerce website built with **React, Firebase, Vite**, and **CSS**. Features include user authentication, product listings, shopping cart, and real-time database integration for a smooth shopping experience.

- <https://my-e-commerce-nine-iota.vercel.app/>

Movie Search App

📅 03/2025 📍 Remote

Developed a movie search application using OMDb API, React, and CSS. Features include real-time search, movie details, and clean UI.

EXPERIENCE

Open Source Contributor

GitHub & Online Communities

📅 03/2023 - Present 📍 Remote

Active participant in GitHub and various online communities, contributing to open-source projects, collaborating with developers, and staying updated with the latest industry trends and best practices.

- Contributed to open-source projects by fixing bugs and adding new features.
- Refactored code to make it more maintainable.
- Engaged with developer communities to learn and share knowledge.
