Personal Statement

I'm a passionate and creative Frontend Developer with 2 years of experience in building visually appealing and user-friendly websites. I specialize in HTML, CSS, JavaScript, and React, developing high-performance web applications with a strong focus on UI/UX. I thrive in collaborative environments, working with teams to create seamless and interactive digital experiences. My attention to detail, problem-solving abilities, and continuous learning mindset help me stay ahead in the fast-evolving tech industry.

Skills & Technologies

- Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js
- Styling & UI Frameworks: CSS, Tailwind CSS (basic knowledge), Bootstrap
- Version Control: Git, GitHub
- Responsive Design & Performance Optimization
- Cross-Browser Compatibility & Mobile-First Approach

- Web Accessibility & SEO Best Practices
- Project Management: Agile methodologies, Jira, Trello
- Testing & Debugging: Chrome DevTools, Jest
- UI/UX Design Principles & Wireframing

Work Experience

Frontend Developer | Self-Employed

Remote | 2023 - Present

- Built and deployed multiple interactive and responsive web applications.
- Worked with React, JavaScript, and CSS to create smooth UI/UX experiences.
- Developed and maintained a portfolio showcasing various frontend projects.
- Created websites for personal projects and small businesses, ensuring mobile responsiveness and accessibility.
- Continuously improved skills through online learning, certifications, and hands-on coding projects.

Open Source Contributor

GitHub & Online Communities | 2023 - Present

- Contributed to open-source projects, fixing bugs and adding features in frontend applications.
- Engaged in developer communities, sharing knowledge and learning best practices.
- Reviewed and improved existing codebases to enhance functionality and user experience.

Projects

Hotel Website (React.js & CSS)

Designed and developed a hotel booking website with smooth scrolling, responsive design, and animations.

Implemented a dynamic navigation bar, services section, contact form, and footer.

Used free online images and modern UI principles to enhance aesthetics.

Ensured cross-browser compatibility and optimal performance.

Integrated a booking system using React state management to handle user reservations.

Applied lazy loading for images to improve page performance and speed.

Portfolio Website

- Created a personal portfolio website showcasing projects, skills, and contact information.
- Implemented a smooth scrolling experience with animations and interactive elements.

- Optimized for mobile responsiveness and fast loading speed.
- Added a contact form with email integration for easy client communication.
- Designed a visually appealing layout with dark and light mode toggle functionality.

E-commerce Store (React.js, Firebase)

- Built a fully functional e-commerce website with a product catalog and user authentication.
- Integrated Firebase for real-time database and authentication (sign-up/login).
- Developed a shopping cart with local storage to preserve user selections.
- Applied filtering and sorting features to enhance user experience.
- Implemented a responsive and modern UI for seamless shopping across devices.

Task Manager App (JavaScript, Local Storage)

- Developed a simple yet effective task manager app for users to create and track daily tasks.
- Used JavaScript to enable adding, deleting, and marking tasks as completed.
- Implemented local storage to preserve tasks even after refreshing the page.
- Designed an intuitive UI with filters for completed and pending tasks.

Education & Certifications

Bachelor's Degree in Banking and Finance

Ambrose Ali University(AAU) | 2018

Relevant Certifications

Frontend Web Development Certification – (Code Accademy, 2024)

JavaScript & React.js Course – (Freecodecamp.org, 2024)

Responsive Web Design Certification – FreeCodeCamp.org

Additional Information

Languages: Fluent in English.

Interests: UI/UX design, open-source contributions, web accessibility, and continuous learning in web technologies.

Strengths: Strong problem-solving skills, adaptability, keen attention to detail, and ability to work under deadlines.
