

OKAN PERPETUA ISI

Web Developer | 3D Web Designer | Creative Designer | Social Media Manager | Customer Service

Lagos, Nigeria | 08103558837 | perpetualokan0@gmail.com | github.com/Perpetualisi | okanperpetual.vercel.app

ABOUT ME

I build websites, design graphics, create 3D web experiences, manage social media, and help customers. I have been doing creative work like flyers, photo editing, and social media for clients since 2020. I build visually rich 3D websites using Three.js, WebGL, and Framer Motion and have delivered live projects for clients in the USA including an IT company, a fashion house, and a non-profit organisation. In 2024 I completed a frontend engineering internship at Andela and have been building and shipping real web projects since then. I also have five years of customer service experience at Jumia and FluxTech Africa where I handled large volumes of work and consistently hit my targets every month.

SKILLS

Web Development: React.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Node.js, Firebase, REST APIs, Git, GitHub, Vercel

WORK EXPERIENCE

Freelance Web Developer and Creative Designer

2020 to Present

- Built and delivered 3D websites for clients in the USA and Nigeria using Three.js, WebGL, and Framer Motion.
- Worked with an IT company, a fashion house, and a non-profit organisation to build their full online presence from scratch.
- Designed flyers, posters, and branded graphics for small businesses, events, and personal brands.
- Edited and retouched photos for clients who needed clean professional images for their pages and stores.
- Ran social media pages for clients on Instagram, Facebook, TikTok, and X and helped grow their followings.
- Handled everything myself from talking to the client, doing the work, making changes, and delivering on time.
- From 2024, started building full web apps using React, TypeScript, and Node.js for more technical projects.

Frontend Engineering Intern, Andela (Remote)

2024

- Wrote React components that were used across three different projects in the team.
- Helped fix bugs and improve how the app loaded and responded for users.
- Joined weekly code reviews and sprint meetings as part of a real engineering team.

Customer Service Executive, Jumia Nigeria

2023 to 2025

- Answered over 80 customer questions every day and kept satisfaction scores above 92 percent.
- Spotted a delivery problem affecting over 200 orders a week, reported it, and helped bring complaints down by 18 percent.
- Hit all monthly targets for response time, resolution, and customer satisfaction for 18 months in a row.
- Helped train six new staff members and got them ready to work in under two weeks.

Customer Service Representative, FluxTech Africa

2020 to 2023

- Solved over 75 percent of customer problems on the first call without passing them to someone else.
- Cut the time it took to handle each call by 20 percent by finding faster ways to use the CRM system.
- Trained new team members and helped them get comfortable with the job quickly.
- Won Employee of the Month two times for good performance and positive feedback from customers.
